

XRAY X4'24

The diagram illustrates the chassis from three perspectives: FRONT, BOTTOM VIEW, and REAR. Key components and options include:

- FRONT VIEW:** Shows the front suspension arms and steering mechanism. A servo is mounted on the steering arm, with a label "STEER. LOCK 25 /degr." indicating the servo's position.
- BOTTOM VIEW:** Shows the underside of the chassis. A central "SERVO HOLDER" is mounted on a "MOTOR MOUNT". The "FRONT ARMS" are shown with options for "MEDIUM" (checkbox) and "HARD" (checkbox with an 'X'). The "CHASSIS" is shown with options for "GRAPHITE" (checkbox), "ALU" (checkbox with an 'X'), and "ALU 1.5mm" (checkbox). The "REAR ARMS" are shown with options for "MEDIUM" (checkbox) and "HARD" (checkbox with an 'X').
- REAR VIEW:** Shows the rear suspension arms and the "T-BRACE" (checkbox) and "ALU BRASS" (checkbox) options.
